Wes Little Fund

Recently the compressed natural gas (CNG) industry in Northeast Oklahoma lost a valued friend. At this time it appears that Wes Little was accidentally killed while working on a CNG fuel tank. Wes had many friends in the CNG industry and will be missed. Tulsa Gas Technology and Blue Energy Fuels have set up a fund to assist Wes' family in this time of need. Anyone can make a donation to his family at any ARVEST Bank branch. The Wes Little fund will remain open for donations until late July.
